About This Content

A letter arrived today. The envelope was thick with the smell of a woman's perfume. It was an invitation, but not the invitation I expected. It was a call to take part in the "Greatest con of all time." Intrigued, I followed the message to one of the wealthiest parts of Atlantic City. The place was full of rich little good-for-nothings who never had to work for a living - the perfect setting for a scam.

New Jersey, February 1919. A young woman claiming to be Anastasia Romanov disappears after raising a considerable sum of money from local Russian immigrants who supported the royalist regime in Russia. The police suspected a con scheme but the very people that gave the money truly believed that the self-proclaimed Romanov has gone into hiding because of Soviet spies threatening her life.

The person in question was Anna Anderson. She is known to be a charismatic and influential socialite with striking good looks. Her personality baffles investigators and people acquainted with the case and on one could tell whether this was a brilliant con act or the naked truth.

A pretty decent story, worth a read, I won't call it a masterpiece because it wasn't but it made me feel as I read and any book that can do that is worth its time.

That being said, it's pretty short, I'll admit I'm a fast reader but 2.2 hours to complete all four endings is not quite worth the pricetag.

I'll recommend it, under the condition that one should pick it up on a sale.. Haha, this game is simply fun! Great backgrounds and funny storyline. Really unique concept! Nice first release for an indie. You've got some strong mechanics here . . . a couple minor UI hiccups, but overall fun to play. I found myself wanting the next chunk of story and opponent.. Memoranda is a underestimate gem. It has a beautiful art style, a funny story and great music.

The only problem: it's short.. 10/10 Game right here boi

Just gotta set that polling rate to 125 for your mouse, max those settings out with that resolution, then restart, and you're good to go.. It is the first publishing game of Kagura Games. That's why this game is well worth it. I look forward to seeing many of their games in the future.

Of course, the H patch you want is supported in this game too. ;)

This game is perfect, perfect gameplay, perfect fps, and perfect story, this game has everything for only \$2.99! This is one of the most underrated games on steam. I hope everybody else enjoys this very well made game.. Nostalgia. I wanted this, found some version and it couldn't work. Bought this. Love it. YAY!. Yes this is a walking simulator. It's a genre now. Deal with it. This is how videogames can be used to tell stories. Games don't have to be about winning anymore. This game tells a story in a way that other media cannot. Even after I realized where the story was going, I resisted. I tried not to be moved. But I cried anyway.. It is combo: Pay for play and pay to win. Great xD. one of the best bl of this freaking place. artwork is completely gorgeous, the voices are amazing too. beware for non-con, dont play if you dont feel comfortable with that. the story is nice too, you learn a bit more of it in each route. i loved this game, i want more.
