About This Content

Create games with an original retro feel! With this 4 color palette, including a really cool plugin that lets you limit the screen to 4 colors, each map can have its own unique palette! Featuring retro tilesets, animations, walking sprites, sideview battlers and 31 vintage-sounding SFX! This super vintage, super cool, well rounded pack will help you start or add onto your retro themed RPG game!

Features:

- 7 attacking-effect animations
- 4 animation sprites: (Balloon, Boat, Crystal, Door)
- 4 Front-view / 4 Side-view battlers (Bat, Bee, Slimes)
- 6 Walking sprites (4 people, 2 thieves)
- Tile A1, A2, A3 (ground tiles, floor tiles, water tiles, cave tiles etc.)
- Tile A4, A5 (wall tiles, cliff tiles etc.)

Tile B (Exterior tiles of trees, grass, signs, castles and more!)

Tile C, Tile D, Tile E (Interior tiles of bed and furniture, gate for a jail / prison for dungeon setup, teddy bears for table decor.)

Extras for parallax mapping or control over certain auto tiles without needing shift mapping.

Basic system graphics such as retro-style icons and window!

"RMB cover" and more!

7 Example maps and Pallette plugin files for convenient use.

31 Retro style SE (sound effects) in .ogg and .m4a format.

Title: RPG Maker MV - RMBoy Graphics Pack

Genre: Design & Illustration, Web Publishing

Developer:

William Craig Ramsey

Publisher:

Degica

Franchise:

Maker

Release Date: 22 Nov, 2018

b4d347fde0

English,Japanese

Can't recommend these assets. If you want to use these in your game you're going to have to put a lot of time into creating assets to match these.

Drawbacks include:

- Very little enemy sprites, get ready to create loads of your own in this style.
- Very little animations, get ready to make your own.
- Character sprites are reskins so you'll have to create your own.

Pros:

- A very extensive icon sheet, includes a variety of icons for pretty much any RPG.
- While a bit limited, the sounds included are of high quality and can be remixed

You're going to have to put loads of work into making character/enemy/animations if you want to use this. Normally that wouldn't be an issue, but that's the point of a graphics pack, to eliminate the time you would normally spend on creating graphics. If the pack was more complete it would be fine, but in this state, I do not recommend it.
